

Contents

Chapter 1. Introduction	5
1. Introduction	5
2. Point Set Topology, Brief Review	7
Chapter 2. Homotopy and the Fundamental Group	11
1. Homotopy	11
2. The Fundamental Group	12
3. Homotopy Equivalence	18
4. Categories and Functors	20
5. The fundamental group of S^1	22
6. Some Applications	25
Chapter 3. Quotient Spaces and Covering Spaces	33
1. The Quotient Topology	33
2. Covering Spaces	40
3. Action of the Fundamental Group on Covering Spaces	44
4. Existence of Coverings and the Covering Group	48
5. Covering Groups	56
Chapter 4. Group Theory and the Seifert–Van Kampen Theorem	59
1. Some Group Theory	59
2. The Seifert–Van Kampen Theorem	66
Chapter 5. Manifolds and Surfaces	73
1. Manifolds and Surfaces	73
2. Outline of the Proof of the Classification Theorem	80
3. Some Remarks about Higher Dimensional Manifolds	83
4. An Introduction to Knot Theory	84
Chapter 6. Singular Homology	91
1. Homology, Introduction	91
2. Singular Homology	94
3. Properties of Singular Homology	100
4. The Exact Homology Sequence– the Jill Clayburgh Lemma	109
5. Excision and Applications	116
6. Proof of the Excision Axiom	120

7. Relation between π_1 and H_1	126
8. The Mayer-Vietoris Sequence	128
9. Some Important Applications	131
Chapter 7. Simplicial Complexes	137
1. Simplicial Complexes	137
2. Abstract Simplicial Complexes	141
3. Homology of Simplicial Complexes	143
4. The Relation of Simplicial to Singular Homology	147
5. Some Algebra. The Tensor Product	152
6. The Lefschetz Fixed Point Theorem	158
Chapter 8. Cell Complexes	165
1. Introduction	165
2. Adjunction Spaces	169
3. CW Complexes	176
4. The Homology of CW complexes	177
Chapter 9. Products and the Künneth Theorem	185
1. Introduction to the Künneth Theorem	185
2. Tensor Products of Chain Complexes	187
3. Tor and the Künneth Theorem for Chain Complexes	191
4. Tensor and Tor for Other Rings	198
5. Homology with Coefficients	199
6. The Eilenberg-Zilber Theorem	201
Chapter 10. Cohomology	209
1. Cohomology	209
2. The Universal Coefficient Theorem	214
3. Cup Products	218
4. Calculation of Cup Products	222
Chapter 11. Manifolds and Poincaré duality	227
1. Manifolds	227
2. Poincaré Duality	232
3. Applications of Poincaré Duality	235
4. Cohomology with Compact Supports	239
5. Proof of Poincaré Duality	242
